PROFILE

Senior Angular Developer with 4+ years of experience at ResilienceSoft delivering 5+ enterprise single-page applications. Own the complete **Angular** frontend, **payment integration**, **OTP-verified login** and **Docker deployments** for EkoStay, a live vacation-rental platform. Skilled in **Angular (v12-v18) incl. version migration**, TypeScript, RxJS, NgRx, **custom directives & pipes** and Node.js/NestJS REST APIs — focused on **performance optimization**, third-party integrations and clean architecture.

WORK EXPERIENCE

Senior Angular Developer — ResilienceSoft, Bilaspur, India

Jul 2022 – Present · 4+ years

- Delivered **5+ enterprise web applications** for clients across vacation-rental, logistics, ticketing and utility domains.
- Led frontend architecture using **Angular (v12-v18)**, TypeScript, RxJS and NgRx; built reusable component libraries, form validations, custom directives and pipes.
- Migrated and upgraded multiple Angular applications from v12 to v18**, improving performance and maintainability; managed **Docker-based deployments** to production and staging.
- Developed backend services and REST APIs with **Node.js / NestJS**.

PROJECTS

EkoStay — Vacation-Rental & Villa Booking Platform

Angular 14, TypeScript, Angular Material, RxJS, SCSS, Bootstrap, Docker, Airpay, Google Maps, Zoho Analytics, Elfsight, N7 CDN

- Own the complete Angular 14 frontend** — architecture, feature modules, reusable components and shared UI library.
- Designed & redesigned core journeys: **property, destinations, checkout & home pages** with responsive, mobile-first layouts & **cross-browser compatibility**.
- Built **advanced search, filters, form validation** and interactive **Google Maps**; implemented **Airpay payment gateway & OTP-verified login**.
- Integrated **Zoho Analytics, SalesAssist, Elfsight, chatbot & widgets** and **N7 (Nitrogen) CDN caching**; led **performance optimization** (Core Web Vitals) with **Docker deployments**.

Delivery Package — Logistics & Package Delivery Platform

Angular, NestJS, Node.js, MySQL, Redis, Elasticsearch, WebSockets

- Built modules and custom middleware on **Angular and NestJS** for package tracking and delivery workflows.
- Developed a **real-time chat** system using **WebSockets**; integrated **Redis** caching and **ElasticSearch**; developed REST APIs.

Carrier Network — Carrier & Transport Management

Angular, Angular Material, Chart.js, Custom Directives, Pipes, ngx-spinner, ngx-toaster, Node.js

- Led frontend in **Angular & Angular Material** with role-based login; implemented interactive **charts (Chart.js)**, filters, **Infinite Scroll** and **Time-Zone custom pipes & directives**.
- Added reusable directives, **global loader, ngx-spinner and ngx-toaster**; contributed to Node.js backend APIs.

SwiftTics — Event Ticketing & Cashless Payment

Angular 14, Node.js, Docker, Google Maps API

- Integrated **Google Maps API** for dynamic event mapping; improved form design and validations; resolved critical bugs to improve stability.

EARLIER PROJECTS

- Docshaala (MEAN)**: Built the **Section Test Module** end-to-end — Angular, Node.js, MySQL, Angular Material, Bootstrap, form validation & REST APIs.
- MDM — Meter Data Management**: **VEE** module and **Ag-Grid** tables (sorting, filtering, pagination, virtual scroll & export) — Angular, Node.js, .NET.
- Dr. AquaPuri**: Product platform with **NgRx & Owl Carousel** — Angular 14, .NET, GitLab. **SalamatakDr** — clinic booking & appointments.
- dcmevents.co.uk**: Contributed to the initial website launch/build (Angular).

SKILLS

FRONTEND (CORE)

Angular (v12-v18) & Version Migration, TypeScript, JavaScript (ES6+), RxJS, NgRx, Angular Material, Reactive Forms & Validation, Custom Directives & Pipes, Lazy Loading, HTTP Interceptors, HTML5, CSS3, SCSS, Bootstrap, Responsive & Cross-Browser, Performance Optimization

UI & INTEGRATIONS

Google Maps, Chart.js, Owl Carousel, ngx-spinner, ngx-toaster, Global Loader, Elfsight, Chatbot, SalesAssist, Airpay Payment Gateway, OTP Login, Advanced Search & Filters, Third-Party APIs

BACKEND & DATA

Node.js, NestJS, REST APIs, WebSockets, Redis, Elasticsearch, N7 (Nitrogen) CDN Caching, MySQL, PostgreSQL, MongoDB, Python, Django (Basics)

DEVOPS & CLOUD

Docker, AWS, PM2, Nginx, FileZilla, Git, GitHub, GitLab, CI/CD

TOOLS

Jira, Trello, Slack, Notion, Postman, VS Code, Claude AI

EDUCATION

MCA — Master of Computer Applications

IGNOU · 2015–2016

CERTIFICATION

AWS Cloud Practitioner Essentials

Amazon Web Services · 2026

LANGUAGES

English — Fluent
Hindi — Fluent
